2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Internal assessment mechanism is transparent and robust in terms of frequency, mode, and response. As per the guidelines issued by Punjabi University, Patiala, the process of Internal Assessment is adequately structured. The schedule of mid semester tests is displayed in academic calendar and on college website. The internal assessment marks are awarded in the following manner:

1. 20% of the marks are allotted to students' class room attendance. The students are informed about their classroom lectures and are encouraged to attend regular classes.

2. 40% of the marks are given on the basis of marks obtained in Mid semester exams which are conducted by Examination Branch of the college and class tests taken by the subject teachers. Mid semester tests are conducted in perfect consistency with university pattern: question papers are set as per guidelines of university and answer scripts are evaluated and distributed to students so that they can discuss their problems with the teachers. Special tests are conducted for students participating in various co-curricular activities like NCC camps, youth festival and tournaments etc. and for those who could not qualify the mid semester exams due to unavoidable circumstances.

3. 40% of the marks are awarded based on project work/assignments and/or practical has done by the students in practical subjects along with independent reading and class room behaviour of the students. All these marks are clubbed to form consolidated internal assessment of the student which is then sent to the university.

Exam Branch: If the student is not satisfied, he can go to the examination branch for the same. The examination branch has teachers from every department who lend a patient ear to the grievance of the students and solve it in every possible manner. The problem generally gets solved.
